ICHLA Statement regarding Immigrant Rights Rally

April 10, 2006

On behalf of the Indiana Commission on Hispanic/Latino Affairs, we are pleased to see community leaders, organizations and others uniting this week to peacefully display the importance of the immigrant community to the State of Indiana and the national debate on immigration. The Commission supports the idea of promoting understanding and cooperation between all communities across the state.

The Commission has sent recommendations to Indiana's Governor and Legislature regarding some of the issues (i.e. immigrant access to the Indiana Driver's License) related to federal immigration issues and highlighted the importance of the immigrant community to the State. We will continue to recommend solutions to Indiana State Government regarding all Hispanic/Latino issues.
